Jeff, I will be there about 10-1030 or so. Todd plans to be there around 730-800am.

thanks

And they said they think they can get it in a long day, but left Tuesday open just in case.

They would like to start at 800am Monday, with the initial activities including decon and laying out the grid. Will that work for you? I know setting up travel can be a pin.

Hi Jeff, could you please share a few more details on the sampling schedule? thanks

1. When will the team be onsite to begin sampling on Monday, morning or afternoon?
2. When do they expect to finish, Monday afternoon or Tuesday?
